Washington, DC 20006

Re: **WisdomTree Dreyfus Commodity Currency Fund, an Actively-Managed
ETF**
File No. TP 10-28

Dear Mr. Drogin:

In your letter dated September 2, 2010, as supplemented by conversations with the staff of the Division of Trading and Markets ("Division"), WisdomTree Trust (the "Trust") on behalf of itself, the Fund, any national securities exchange or national securities association on or through which the exchange traded shares of the Fund ("Shares") are listed and/or may subsequently trade, the Distributor, and persons or entities engaging in transactions in Shares, requests exemptive relief from Rule 10b-17 under the Securities Exchange Act of 1934, as amended ("Exchange Act") and interpretive relief regarding Rules 101 and 102 of Regulation M in connection with secondary market transactions in Shares and the creation or redemption of Creation Units, as discussed in your letter. We have enclosed a photocopy of your letter. Each defined term in this letter has the same meaning as defined in your letter, unless we note otherwise.

The Trust was organized on December 15, 2005 as a Delaware statutory trust. The Trust is registered with the Commission under the Investment Company Act of 1940, as amended ("IC Act"), as an open-end management investment company. The Trust is authorized to have multiple series or portfolios, including the Fund that is the subject of this request. The Fund seeks to achieve total returns reflective of money market rates in selected commodity-producing countries and changes to value of such countries' currencies relative to the U.S. dollar. In addition to seeking broad exposure across countries and currencies, the Fund intends to seek exposure across currencies correlated to each of the key commodity groups identified in your letter. The Fund intends to achieve exposure to selected commodity-producing countries available to U.S. investors by investing primarily in short-term U.S. money market securities and forward currency contracts and swaps. The combination of money market securities with forward currency contracts and currency swaps is designed to create a position economically similar to a money market instrument denominated in a non-U.S. currency. The Fund will operate in a manner substantially identical to other ETFs to which the Staff has granted relief in the past. In your letter, you also represent the following:

- Shares of the Fund will be issued by an open-end management investment company that is registered with the Commission;

- The Fund will continuously redeem, at net asset value ("NAV"), Creation Unit Aggregations of 50,000 Shares or such other amount where the value of a Creation Unit is at least \$1,000,000 at the time of issuance, and the secondary market price of the Shares should not vary substantially from the NAV of such Shares;
- Shares of the Fund will be listed and traded on a Listing Exchange;
- No security (other than Government Securities or Foreign Government Securities) held by the Fund will represent more than 30% of the assets of the Fund, and the five highest weighted component securities held by the Fund's portfolio (other than Government Securities or Foreign Government Securities) will not in the aggregate account for more than 65% of the assets of the Fund;
- The Fund intends to diversify that portion of its portfolio not invested in Government Securities and/or Foreign Government Securities by investing in multiple non-affiliated issuers;
- On each Business Day before commencement of trading in Shares on the Listing Exchange, the Fund will make available on their Website the identities and quantities of the Portfolio Securities which will form the basis for their calculation of NAV at the end of the Business Day;
- The Listing Exchange will disseminate: (i) continuously throughout the trading day, through the facilities of the Consolidated Tape Association, the market value of a Share, and (ii) every 15 seconds throughout the trading day, separately from the consolidated tape, a calculation of the estimated NAV of a Share;
- The arbitrage mechanism will be facilitated by the transparency of the Fund's portfolio and the availability of the IIV, the liquidity of its Portfolio Securities, and the ability to access such securities, as well as the arbitrageurs' ability to create workable hedges;
- The Fund will invest solely in liquid Portfolio Securities;
- The Fund will invest in Portfolio Securities with liquidity levels that will facilitate an effective and efficient arbitrage mechanism and the ability to create workable hedges;
- Arbitrageurs are expected to take advantage of price variations between the Fund's market price and its NAV; and
- A close alignment between the market price of Fund shares and the Fund's NAV is expected.

Response:

Regulation M

Redeemable securities issued by an open-end management investment company are excepted from the provisions of Rules 101 and 102 of Regulation M. The Commission granted the Trust an exemption from certain provisions of the IC Act in order to permit the Trust to maintain its registration as an open-end management investment company and to issue shares that are redeemable only in Creation Unit size aggregations of Shares.¹

Rule 101 of Regulation M

Generally, Rule 101 of Regulation M is an anti-manipulation regulation that, subject to certain exceptions, prohibits any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in the Regulation. The provisions of Rule 101 of Regulation M apply to underwriters, prospective underwriters, brokers, dealers, or other persons who have agreed to participate or are participating in a distribution of securities.

On the basis of your representations and the facts presented, and without necessarily concurring in your analysis, particularly that the Trust is a registered open-end management investment company that will continuously redeem at NAV, Creation Unit size aggregations of the Shares of the Fund, and the secondary market price of the Shares of the Fund should not vary substantially from the NAV of such Shares, which is based on the value of the Portfolio Securities, the Division hereby confirms that the Trust is excepted under paragraph (c)(4) of Rule 101 of Regulation M with respect to the Fund. Thus, persons who may be deemed to be participating in a distribution of Shares of the Fund may bid for or purchase such Shares during their participation in such distribution.²

The Division also confirms the interpretation of Rule 101 of Regulation M that a redemption of Creation Unit size aggregations of Shares of the Fund and the receipt of Portfolio Securities in exchange therefor by a participant in a distribution of Shares of the Fund would not

¹ See IC Act Release Nos. 28174 (Feb. 27, 2008) and 28471 (Oct. 27, 2008).

² We note that Regulation M does not prohibit a distribution participant and its affiliated purchasers from bidding for and purchasing Portfolio Securities in accordance with the exceptions contained in paragraphs (b)(6) and (c)(1) of Rule 101. Rule 101(b)(6)(i) excepts basket transactions in which bids or purchases are made in the ordinary course of business in connection with a basket of 20 or more securities in which a covered security does not comprise more than 5% of the value of the basket purchased. Rule 101(b)(6)(ii) excepts adjustments to such a basket made in the ordinary course of business as a result of a change in the composition of a standardized index. Also, Rule 101(c)(1) excepts transactions in actively-traded securities, that is, securities that have an average daily trading volume value of at least \$1 million and are issued by an issuer whose common equity securities have a public float value of at least \$150 million; provided however, that such securities are not issued by the distribution participant or an affiliate of the distribution participant.

constitute an "attempt to induce any person to bid for or purchase a covered security, during the applicable restricted period" within the meaning of Regulation M, and therefore would not violate Regulation M.

Rule 102 of Regulation M

Rule 102 of Regulation M prohibits issuers, selling security holders, or any affiliated purchaser of such person from bidding for, purchasing, or attempting to induce any person to bid for or purchase a covered security during the applicable restricted period in connection with a distribution of securities effected by or on behalf of an issuer or selling security holder. Rule 100 of Regulation M defines "distribution" to mean any offering of securities that is distinguished from ordinary trading transactions by the magnitude of the offering and the presence of special selling efforts and selling methods.

On the basis of your representations and the facts presented, particularly that the Trust is a registered open-end management investment company that will redeem at NAV Creation Units of Shares of the Fund, the Division hereby confirms that the Trust is excepted under paragraph (d)(4) of Rule 102 of Regulation M with respect to the Fund, thus permitting the Fund to redeem Shares of the Fund during the continuous offering of such Shares.

Rule 10b-17

Rule 10b-17, with certain exceptions, requires an issuer of a class of publicly traded securities to give notice of certain specified actions (for example, a dividend distribution, stock split, or rights offering) relating to such class of securities in accordance with Rule 10b-17(b).

On the basis of your representations and the facts presented, and without necessarily concurring in your analysis, particularly that the Commission has determined to grant an exemption from the IC Act to register the Trust as an open-end management investment company notwithstanding the fact that it issues Shares with limited redeemability, the Commission hereby grants an exemption from the requirements of Rule 10b-17 to the Trust with respect to transactions in the Shares.³

The foregoing exemption from Rule 10b-17 under the Exchange Act and the interpretive advice regarding Rules 101 and 102 of Regulation M are based solely on your representations and the facts presented to the Division, and are strictly limited to the application of those rules to transactions involving the Shares of the Fund under the circumstances described above and in your letter. Such transactions should be discontinued, pending presentation of the facts for our consideration, in the event that any material change occurs with respect to any of those facts or

³ We also note that compliance with Rule 10b-17 would be impractical in light of the nature of the Fund. This is because it is not possible for the Trust to accurately project ten days in advance what dividend, if any, would be paid on a particular record date.

Jack P. Drogin
Schiff Hardin
September 2, 2010
Page 5 of 5

representations. Moreover, the foregoing exemption from Rule 10b-17 under the Exchange Act and the interpretive advice regarding Rules 101 and 102 of Regulation M are subject to the condition that such transactions in Shares of the Fund, or any related securities, are not made for the purpose of creating actual, or apparent, active trading in or raising or otherwise affecting the price of such securities.

The exemption and interpretations are subject to modification or revocation if at any time the Commission or Division determines that such action is necessary or appropriate in furtherance of the purposes of the Exchange Act. In addition, persons relying on the exemption and interpretations are directed to the anti-fraud and anti-manipulation provisions of the Exchange Act, particularly Sections 9(a), 10(b), and Rule 10b-5 thereunder. Responsibility for compliance with these and other provisions of the federal or state securities laws must rest with persons relying on the exemption and interpretations.

The Division expresses no view with respect to other questions that the proposed transactions may raise, including, but not limited to, the adequacy of disclosure concerning, and the applicability of other federal and state laws to, the proposed transactions.

For the Commission, by the Division of Trading
and Markets,
pursuant to delegated authority,

Victoria L. Crane
Assistant Director

Re: Request of WisdomTree Trust, et al., for Exemptive Relief from Rule 10b-17 and Interpretive Relief Regarding Rules 101 and 102 of Regulation M under the Securities Exchange Act of 1934 for the WisdomTree Dreyfus Commodity Currency Fund an Actively Managed ETF

Dear Ms. Tao:

SUMMARY OF REQUEST FOR RELIEF

We are writing on behalf of WisdomTree Trust ("Trust") and the WisdomTree Dreyfus Commodity Currency Fund (the "Fund"), a series of the Trust described herein. The Trust, on behalf of itself, any national securities exchange or national securities association on or through which shares of the Fund ("Shares")¹ are listed (each, a "Listing Exchange") and/or may subsequently trade (with each such market referred to herein as a "Market")², ALPS Distributors,

¹ The Trust intends to list the Shares of the Fund described herein. The Commission has approved a proposed rule change by NYSE Arca, Inc. to permit it to list the Shares pursuant to Section 19(b) of the Exchange Act. See Securities Exchange Act Release No. 62623 (August 2, 2010). In addition, the Commission granted the requested relief to the Trust from the application of certain sections of the Investment Company Act of 1940 ("1940 Act") and the rules promulgated thereunder (see Rel. Nos. IC -28174 (February 27, 2008); IC-28471 (October 27, 2008)).

² In the future, the Trust may determine to list Shares on a Market other than the Listing Exchange. If the Trust lists Shares on a Market other than the Listing Exchange, Shares will be listed in accordance with exchange listing standards that are, or will become, effective pursuant to Section 19(b) of the Exchange Act. If the Shares also trade on a Market pursuant to unlisted trading privileges, such trading will be conducted pursuant to self-regulatory organization rules that have become effective pursuant to Exchange Act Section 19(b).

Inc. ("Distributor") and persons or entities engaging in transactions in Shares, including Authorized Participants (as defined below), hereby requests, as appropriate, from the staff of the Division of Trading and Markets ("Staff") of the Securities and Exchange Commission ("Commission"), or from the Commission, an exemption from, Rule 10b-17 and interpretive relief regarding Rules 101 and 102 of Regulation M under the Securities Exchange Act of 1934 ("Exchange Act"). The Fund is intended to operate as an exchange traded fund organized as an open-end investment company (an "ETF"). The Fund is actively managed. The investment adviser to the Fund will select securities consistent with the Fund's investment objective and policies without reference to the composition of an index.³

The Staff has issued relief substantially identical to that requested herein to index-based ETFs that are listed and traded on a national securities exchange and that meet certain other conditions ("Prior Index ETFs").⁴ The Staff also has issued relief substantially identical to that requested herein to non-index based or "actively managed" ETFs, including actively managed ETFs issued by the Trust, that are listed and traded on a national securities exchange, and that meet certain other conditions (the "Prior Actively Managed ETFs").⁵ Prior Index ETFs and Prior

³ The Fund intends to invest primarily in U.S. government securities and forward currency contracts. The Fund is not leveraged and will not use leveraged instruments to enhance leverage. Additionally, the Fund may invest cash and cash equivalents or other money market instruments, including shares of money market mutual funds and repurchase agreements, and equity or fixed income securities traded in international markets.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 3 of 21

Actively Managed ETFs may be referred to collectively as the “Prior ETFs.” The Fund will operate in a manner substantially identical to the Prior ETFs. For example, the Fund will disclose its portfolio holdings on a daily basis. In addition, information about the prices of the securities and other instruments held by the Fund is readily available from a variety of sources. The Authorized Participants (as defined below) and other institutional investors expected to invest in the Fund have access to this information and will be able to make their own assessment of the value of the Fund’s portfolio. Moreover, information respecting fluctuations in currency exchange rates, one of the principal factors expected to effect daily fluctuations in the NAV of the Fund, is readily available to the marketplace throughout each Business Day (as defined below).

The staff letters to Prior Actively Managed ETFs provided relief specific to the funds described therein and, therefore, the Trust and the Fund are not entitled to rely on those letters for relief. Because the Fund is not an index-based ETF, it also is not entitled to rely on the relief previously provided to Prior Index ETFs. The Trust and the Fund note, however, that their proposal – the creation and issuance by an actively-managed investment company of shares that individually trade on a national securities exchange, but that can only be purchased from and redeemed with the issuing investment company in large aggregations – is no longer novel.

For these reasons, we do not believe that the Fund raises any significant new regulatory issues.

In connection with this request, the Trust represents as follows:

- Shares of the Fund will be issued by an open-end management investment company that is registered with the Commission under the Investment Company Act of 1940 ;
- The Fund will issue and redeem, at net asset value (sometimes hereinafter referred to as “NAV”), Creation Units of at least 50,000 Shares or such other amount where the

value of a Creation Unit is at least \$1,000,000 at the time of issuance, and the secondary market price of the Shares should not vary substantially from the NAV of such Shares;

- Shares of the Fund will be listed and traded on a Listing Exchange;
- On each Business Day before commencement of trading in Shares on the Listing Exchange, the Fund will make available on its website the identities and quantities of the securities and other assets held by the Fund which will form the basis for its calculation of NAV at the end of the Business Day; and
- The Listing Exchange or other market information provider will disseminate every 15 seconds throughout the trading day the intra-day proxy value of the Fund per Share.

This Letter is divided into six parts. Part I is a description of the Trust and the Fund, Part II is a description of the Trust's disclosure documents with respect to its Shares, Part III is a comparison of the Trust against Prior ETFs, Part IV contains a discussion of the dissemination of information regarding Shares, Part V contains the requests for relief and Part VI is the conclusion.

PART I

A. The Trust and the Fund

The Trust was organized as a Delaware statutory trust on December 15, 2005 and is authorized to have multiple series or portfolios, one of which is the subject of this request. The Trust is registered with the Commission under the Investment Company Act of 1940, as amended ("1940 Act"), as an open-end management investment company and currently offers over forty (40) separate investment portfolios.

The Trust intends to list the Shares on NYSE Arca ("Arca"). The Trust will offer and sell such shares pursuant to an amendment to its Registration Statement (Registration Nos. 811-21864 and 333-132380) on Form N-1A under the 1940 Act and the Securities Act of 1933 ("1933 Act"). A Registration Statement describing the Fund became effective on March 19, 2010 and was revised on June 29, 2010.

The Fund seeks to achieve total returns reflective of money market rates in selected commodity-producing countries and changes to value of such countries' currencies relative to the U.S. dollar. The term "commodity currency" generally is used to describe the currency of a country whose economic success is commonly identified with the production and export of

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 5 of 21

commodities (such as precious metals, oil, agricultural products or other raw materials) and whose value is closely linked to the value of such commodities. As the demand for, or price of, such commodities increases money tends to flow into the country. This generally lifts the country's economic prospects and supports the value of its currency. For example, Canada is commonly recognized as a leading producer and exporter of oil and natural gas. Increases in the price of oil and gas historically have had a positive influence on the value of the Canadian dollar relative to other currencies. Similarly, a significant portion of the economies of Australia and South Africa are tied to mining and production of industrial and precious metals, such as iron ore and gold. Increases in the prices such metals historically have provided support to the value of the Australian dollar and South African rand relative to other currencies. Conversely, declines in the demand for, or value of, such commodities historically have contributed to declines in the relative value of these countries' currencies.

The Fund is designed to provide exposure to both the currencies and money market rates available to foreign investors in selected commodity-producing countries. The Fund intends to invest in commodity-producing countries such as Australia, Brazil, Canada, Chile, Indonesia, Mexico, New Zealand, Norway, Russia and South Africa. In addition to seeking broad exposure across countries and currencies, the Fund intends to seek exposure across currencies correlated to each of the key commodity groups: industrial metals, precious metals, energy, agriculture and livestock. The Fund generally will invest only in currencies that "float" relative to other currencies and that have active trading markets. The value of a floating currency is largely determined by supply and demand and prevailing market rates. In contrast, the value of a "fixed" currency generally is set by a government or central bank at an official exchange rate. The Fund generally does not intend to invest in the currencies of notable commodity producers, such as China, Saudi Arabia and the United Arab Emirates, since they are fixed or otherwise closely linked to the U.S. dollar. The Fund will only invest in currencies that the Adviser and Sub-Adviser (defined below) deem to be sufficiently liquid and accessible.

The Fund intends to achieve exposure to selected commodity-producing countries available to U.S. investors by investing primarily in short-term U.S. money market securities and forward currency contracts and swaps. The combination of money market securities with forward currency contracts and currency swaps is designed to create a position economically similar to a money market instrument denominated in a non-U.S. currency. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract. A currency swap is an agreement between two parties to exchange one currency for another at a future rate. The Fund is not leveraged. In order to reduce interest rate

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 6 of 21

risk, the Fund generally expects to maintain an average portfolio maturity of 90 days or less. The “average portfolio maturity” of the Fund is the average of all the current maturities of the individual securities in the Fund’s portfolio. Average portfolio maturity is important to investors as an indication of the Fund’s sensitivity to changes in interest rates. Funds with longer portfolio maturities generally are subject to greater interest rate risk. All money market securities acquired by the Fund will be rated in the upper two short-term ratings by at least two nationally recognized statistical rating organizations..

No portfolio security held by the Fund (other than government securities as defined in section 3(a)(42) of the Exchange Act (“Government Securities”) and similar obligations of foreign governments or agencies of foreign governments (“Foreign Government Securities”)) will represent more than 30% of the weight of the Fund and the five highest weighted portfolio securities of the Fund (other than Government Securities and/or Foreign Government Securities) will not in the aggregate account for more than 65% of the weight of the Fund. The Fund intends to diversify that portion of its portfolio not invested in Government Securities and/or Foreign Government Securities by investing in multiple non-affiliated issuers.

As a matter of general policy, the Fund will invest, under normal circumstances, at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in investments that are tied economically to selected commodity-producing countries available to U.S. investors that make a significant contribution to the global export of commodities. The remainder of the Fund’s portfolio may be invested in Government Securities, Foreign Government Securities, and U.S. money market instruments in a manner designed to achieve its investment objective.

B. Other Parties

1. Adviser and Sub-Adviser

The Fund will be advised by WisdomTree Asset Management, Inc. (“Adviser”) pursuant to an Investment Advisory Agreement between the Trust and the Adviser. WisdomTree Asset Management is a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). The Adviser has offices located at 380 Madison Avenue, 21st Floor, New York NY 10017. The Adviser may designate one or more sub-advisers (each, a “Sub-Adviser”) for the Fund. The Dreyfus Corporation currently acts as Sub-Adviser to the Fund.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 7 of 21

The Adviser or the Sub-Adviser chooses the Fund's portfolio investments and places orders to buy and sell the Fund's portfolio investments. Any Sub-Adviser will not be affiliated (within the meaning of Section 2(a)(3) of the 1940 Act) with the Adviser, the Distributor, Arca or any other Market.

2. Distributor and Authorized Participants

ALPS Distributors, Inc., a broker-dealer registered under the Exchange Act and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"), will act as the distributor and principal underwriter of the Creation Units of Shares ("Distributor"). The Distributor will distribute Shares on an agency basis. The Distributor is not affiliated (within the meaning of Section 2(a)(3) of the 1940 Act) with the Adviser, Sub-Adviser, Arca or any other Market.

Entities that have entered into an agreement with the Distributor to become "Authorized Participants" may place orders with the Distributor to purchase or redeem Creation Units, as described in Part II D. below. The Authorized Participants are not affiliated (within the meaning of Section 2(a)(3) of the 1940 Act) with the Adviser, Sub-Adviser, Arca or any other Market.

3. Administrator/Custodian/Transfer Agent/Securities Lending Agent/Fund Accounting Agent

The Trust may appoint the Adviser or other service providers to act as administrator ("Administrator"), custodian ("Custodian"), transfer agent ("Transfer Agent"), Fund Accounting Agent ("Fund Accounting Agent") and securities lending agent ("Securities Lending Agent") for the Trust. The identity of the Adviser, Sub-Adviser, Administrator, Custodian, Transfer Agent and Fund Accounting Agent will be disclosed in the Prospectus. If any such persons are "affiliated" persons within the meaning of Section 2(a)(3) of the 1940 Act with the Trust, the Adviser or the Distributor, such affiliation will also be disclosed and the performance of their duties and obligations will be conducted within the provisions of the 1940 Act and the rules thereunder.

C. Shares

As described in subparts I.D. through I.F. below, the Fund will issue and redeem its Shares only in aggregations of 50,000 Shares or multiples thereof ("Creation Units"). Shares will not be individually redeemable; only Shares combined into Creation Units will be redeemable. The Trust intends that the initial net asset value ("NAV") of Shares will be

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 8 of 21

established at a level convenient for trading purposes.⁶ Purchasers of Creation Units will be able to unbundle the Creation Units into the individual Shares comprising such Creation Unit.

It is not expected that the Fund's Distributor will maintain a secondary market in individual Shares. The Listing Exchange will designate one or more member firms to act as a "Lead Market Maker" responsible for maintaining depth and quality of trading in the Shares. The "Lead Market Maker" has quote and execution obligations and the responsibility for keeping tight spreads in the Shares. The Shares will trade on the Listing Exchange in a manner similar to the shares of the Prior ETFs that are listed on Arca or another Market.⁷

Shares will be registered in book-entry form only; the Fund will not issue individual certificates for Shares. The Depository Trust Company ("DTC") will serve as securities depository for Shares and DTC or its nominee will be the record or registered owner of all outstanding Shares. Beneficial ownership of Shares will be shown on the records of DTC or a broker-dealer that is a participant in DTC (a "DTC Participant"). Beneficial owners of Shares ("Beneficial Owners") will receive, at the Fund's expense, all of the statements, notices, and reports required under the 1940 Act and other applicable laws ("Required Materials").

The Trust understands that under existing industry practice, in the event the Trust requests any action of Beneficial Owners of Shares, or a Beneficial Owner desires to take any action that DTC, as the record owner of all outstanding Shares, is entitled to take, DTC would authorize the DTC Participants to take such action and that the DTC Participants would authorize the indirect participants and Beneficial Owners acting through such DTC Participants to take such action and would otherwise act upon the instructions of Beneficial Owners owning Shares through them. As described above, the Trust will recognize DTC or its nominee as the record owner of Shares for all purposes.

Accordingly, to exercise any rights of a holder of Shares, each Beneficial Owner must rely upon the procedures of (1) DTC, (2) DTC Participants and (3) brokers, dealers, banks and trust companies that clear through or maintain a custodial relationship with a DTC Participant,

⁶ The Trust believes that a convenient trading range will be between \$25 - \$100 per Share and the Trust reserves the right to declare a share split, or a reverse share split, if the trading price over time deviates significantly from such price range. Each shareholder will have one vote per Share.

⁷ The Trust expects that the trading of Shares on any other Market would be conducted in a similar manner.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 9 of 21

either directly or indirectly, through which such Beneficial Owner holds its interest. Moreover, because the Trust's records will reflect ownership of Shares by DTC only, the Trust will furnish the Required Materials to the DTC Participants who, in turn, will be responsible for distributing them to the Beneficial Owners. This arrangement is identical to that of all Prior ETFs.

D. Purchasing Shares

The Trust will offer, issue and sell Shares of the Fund in Creation Units through the Distributor on a continuous basis at the NAV per share next determined after receipt of an order in proper form. The NAV of each Fund is expected to be determined as of the close of the regular trading session on the New York Stock Exchange ("NYSE") (ordinarily 4:00 p.m. Eastern Time ("ET")), on each day that the NYSE is open for business (each such day a "Business Day"). The Trust will sell and redeem Creation Units of each Fund on every Business Day and will not suspend the right of redemption or postpone the date of payment or satisfaction upon redemption for more than seven days, other than (a) any period during which the NYSE is closed other than customary weekend and holiday closings, (b) any period during which trading on the NYSE is restricted, (c) any period during which an emergency exists as a result of which disposal by the Trust of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Trust to determine the value of its net assets, and (d) for such other periods as the Commission has by order permitted in connection with certain international funds and may by order permit for the protection of holders of Shares. The Fund will always have a fixed number of Shares in a Creation Unit as specified in the Prospectus for the Fund.⁸

As discussed above, individual Shares will be listed on the Listing Exchange (or another Market) and traded in the secondary market in the same manner as other equity securities and the units or shares (as the case may be) of Prior ETFs currently listed and trading thereon. The price of Shares trading in the secondary market will be based on a current bid/offer market. No secondary sales will be made to brokers or dealers at a concession by the Distributor or by the Fund. Transactions involving the sale of Shares in the secondary market -- which will be between purchasers and sellers and will not involve the Fund -- will be subject to customary brokerage commissions and charges. This also is the method employed by the Prior ETFs. Like the Prior ETFs, the price at which Shares trade will be disciplined by arbitrage opportunities

⁸ Assuming a Creation Unit of 50,000 Shares and \$25 per Share price for a Fund as of the first day of trading on the Listing Exchange, the Creation Unit value on such day would be \$1,250,000.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 10 of 21

created by the ability to purchase or redeem Creation Units at NAV, which should ensure that Shares do not trade at a material premium or discount in relation to NAV.

Redemptions of Shares of the Fund in Creation Units will be made by the Trust in a similar manner, but the process is reversed. Shares may only be directly purchased, or redeemed, by or through an entity which is an "Authorized Participant" (i.e., (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation ("NSCC"), a clearing agency that is registered with the SEC; or a DTC Participant, and (ii) which has executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit Aggregations). Authorized Participants may be, but are not required to be, members of the Primary Listing Market. Authorized Participants are generally broker-dealers and are not compensated by the Trust or any Fund in connection with the issuance or redemption of Shares.

E. Procedures Applicable To Purchases of the Fund

1. Deposits of Cash and/or Securities.

To purchase Shares directly from the Fund, an Authorized Participant must deposit with the Fund the required cash amount and/or designated securities ("Deposit Securities"; together with the required cash amount, the "Portfolio Deposit"). The Portfolio Deposit may consist entirely of cash. Each Business Day, prior to the opening of trading on the Listing Exchange, the Adviser or Sub-Adviser will make the required Portfolio Deposit available through the NSCC.

2. Placement of Purchase Orders.

As mentioned above, all purchase orders for Shares in Creation Units of the Fund must be placed by or through an Authorized Participant. A purchase order must be received by the Distributor prior to the Fund's purchase cut-off time, in order to receive that day's NAV per Share. All other procedures set forth in the Participant Agreement must be followed in order for an Authorized Participant to receive the NAV determined on that day. The Custodian shall cause any sub-custodian(s) of the Fund to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, the Portfolio Deposit, with any appropriate adjustments as advised by the Trust.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 11 of 21

Purchases of Creation Units of Shares of the Fund by an Authorized Participant generally will settle no later than the third (3rd) Business Day following the transmittal date (generally expressed as "T+3").⁹

3. Transaction Fee on Purchases of Creation Units.

The Trust may impose transaction fees ("Transaction Fees") in connection with the purchase of Creation Units. The exact amount of any such Transaction Fees for the Fund will be determined by the Trust. The purpose of this fee is to protect the continuing shareholders of the Trust against the possible dilutive transactional expenses including operational processing and brokerage costs associated with establishing and liquidating portfolio positions in connection with the purchase of Creation Units.

The maximum Transaction Fee, and any variations or waivers thereof, will be fully disclosed in the current Prospectus. From time to time and for such periods as the Trust in its sole discretion may determine, the Transaction Fees for purchase or redemption of Creation Units of the Fund may be increased, decreased or otherwise modified. Such changes and variations will be effected by an amendment or supplement to the then current Registration Statement for the Fund. Such Transaction Fees will be limited to amounts that will have been determined by the Adviser to be appropriate and will take into account transaction and operational processing costs associated with the recent purchases and sales of the securities held by the Trust. In all cases such Transaction Fees will be limited in accordance with requirements of the Commission applicable to management investment companies offering redeemable securities.

F. Procedures Applicable To Redemptions of the Fund

1. Redemption Proceeds.

The payment upon redemption for the Fund will generally consist of cash and/or designated securities in an amount equal to the NAV of a Creation Unit ("Redemption Securities"; together with the cash amount the "Redemption Payment"). The Redemption Payment also may consist entirely of a specified amount of cash at the discretion of the Fund.

⁹ To the extent that the standard for the delivery and settlement of Deposit Securities is shortened from T+3 to T+2, T+1 or even T, the time for the delivery and settlement of purchases or redemptions of Creation Units of Shares of the Fund by an Authorized Participant may be similarly shortened.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 12 of 21

The Adviser or Sub-Adviser will make the composition of the Redemption Payment available through the NSCC, DTC or the Distributor.

2. Placement of Redemption Orders.

Orders to redeem Shares in Creation Units of the Fund must be delivered by an Authorized Participant; investors other than Authorized Participants are responsible for making arrangements for a redemption request to be made through an Authorized Participant. An order to redeem Shares in Creation Unit(s) of the Fund is deemed received by the Trust on the transmittal date if: (i) such order is received by the Transfer Agent not later than the Fund's redemption cut-off time on the transmittal date; (ii) such order is accompanied or followed by the requisite number of Shares of the Fund specified in such order; and (iii) all other procedures set forth in the Participant Agreement are properly followed. Deliveries of portfolio securities to redeeming Authorized Participants generally will be made within three Business Days.

3. Transaction Fee on Redemption of Creation Units.

The Trust may impose Transaction Fees in connection with the redemption of Creation Units of the Fund. The exact amount of any Transaction Fee will be determined by the Trust for the Fund. The purpose of this fee is to protect the continuing shareholders of the Trust against the possible dilutive transactional expenses including operational processing and brokerage costs associated with establishing and liquidating portfolio positions in connection with the redemption of Creation Units.

PART II

A. Disclosure Documents

The primary disclosure documents with respect to the Shares will be the Prospectus for the Fund. As with all investment company securities, the purchase of Shares in Creation Units from any Fund will be accompanied or preceded by a Prospectus.

With respect to disclosure in the Prospectus concerning the non-redeemability of Shares, the Trust and the Fund will observe the following policies: (1) the term "mutual fund" will not be used except to compare and contrast the Trust or the Fund with conventional mutual funds; (2) the term "open-end management investment company" will be used in the Prospectus only to the extent required by Form N-1A or other securities law requirements and this phrase will not be included on the prospectus cover page or summary; (3) the front cover page of the Prospectus

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 13 of 21

and the prospectus summary will include a distinct paragraph or paragraphs setting forth the fact that Shares will be listed on a Market and will be individually non-redeemable; (4) the Prospectus will disclose that the owners of Shares may acquire those Shares from the Fund, and tender those Shares for redemption to the Fund, only in Creation Units; and (5) the Prospectus will clearly disclose that individual Shares prices may be below, above, or at the most recently calculated NAV.

The Prospectus will also indicate that the proposed method by which Shares will be purchased and traded may raise certain issues under applicable securities laws. Similar disclosure is made in the prospectuses for the Prior ETFs currently trading on a Market. As described above, Shares in Creation Units will be offered continuously to the public. Because new Shares may be created and issued on an ongoing basis, at any point during the life of the Fund, a "distribution," as such term is used in the 1933 Act, may be occurring. Broker-dealers and other persons will be cautioned in the Prospectus that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery and liability provisions of the 1933 Act. The Prospectus will also state that a determination of whether one is an underwriter must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular cases, and may provide examples of activities that could lead to categorization as an underwriter. The Prospectus will also state that dealers who are not "underwriters," but are participating in a distribution (as contrasted to ordinary secondary trading transactions), and thus dealing with Shares that are part of an "unsold allotment" within the meaning of Section 4(3)(c) of the 1933 Act, would be unable to take advantage of the prospectus-delivery exemption provided by Section 4(3) of the 1933 Act.¹⁰

¹⁰ The Trust notes that prospectus delivery is not required in certain instances, including purchases of Shares by an investor who has previously been delivered a prospectus (until such prospectus is supplemented or otherwise updated) and unsolicited brokers' transactions in Shares (pursuant to Section 4(4) of the 1933 Act). Also, firms that do incur a prospectus-delivery obligation with respect to Shares will be reminded that under Securities Act Rule 153, a prospectus-delivery obligation under Section 5(b)(2) of the Securities Act owed to a member of the Market in connection with a sale on such Market, is satisfied by the fact that the Prospectus are available at such Market upon request. The Prospectus also will note that the prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on the Market.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 14 of 21

The Distributor will coordinate the production and distribution of the Prospectus to broker-dealers. It will be the responsibility of the broker-dealers to ensure that a Prospectus is provided to each secondary market purchaser of Shares.

B. Website

As discussed more fully in Part IV.B. below, the portfolio holdings of the Fund will be disclosed on the public website of the Primary Listing Market and/or the Trust.¹¹ The Trust's agent will calculate the Intra-Day Indicative Value or "IIV" (discussed below) for the Fund. The IIV will be provided by the Trust's agent to the Listing Exchange and disseminated by the Listing Exchange through the facilities of the Consolidated Tape Association.

PART III

Comparison of the Funds To The Prior ETFs That Have Sought Similar Commission Action And Received Similar Relief.

The Funds will operate in a manner substantially identical to the operation of the Prior ETFs. The Relief requested in this Letter is substantially identical to the relief granted by the Commission to the Prior ETFs.

PART IV

A. Availability of Information Regarding the Fund and Shares

1. General.

The daily NAV for the Fund will be calculated by the Fund's accounting agent and disseminated each Business Day by the Fund. The NAV of the Fund generally will be calculated each Business Day as of the close of the NYSE and posted on the Fund's website shortly thereafter. It is the policy of the Trust to make the NAV of each ETF available to all market participants at the same time.

¹¹ The Trust will comply with its obligations, imposed by recent amendments to Form N-1A, to disclose in its policies and procedures with respect to the disclosure of its portfolio securities and to state in its Prospectus that a description of each Fund's policies and procedures is available in the SAI. See Release No. IC-26418.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 15 of 21

2. Information Provided to Authorized Participants.

All Authorized Participants may access the information described below. Applicants note that Authorized Participants that are not also NSCC members may have to either join NSCC or obtain the portfolio composition file ("PCF") from a third-party data vendor.

3. Dissemination of Information about Creation and Redemption Baskets.

As discussed above, the Adviser or Sub-Adviser will make available through NSCC, DTC or the Distributor on each Business Day, prior to the opening of trading on Arca, the Portfolio Deposit per outstanding Share of the Fund. A list of the names and amount of each security constituting the Redemption Securities will also be made available each Business Day.

B. Dissemination of Information About the Fund's Portfolio Securities

The prices of the Fund's portfolio securities and other investments ("Portfolio Securities") and the exchange rates of the currencies in which the Fund invests are readily available from, as applicable, automated quotation systems, public sources, such as newspapers and other publications, and from a variety of on-line information services, such as Bloomberg or Reuters, other pricing services and major broker-dealer firms that make markets in such securities.

In addition, prior to the opening of the NYSE each Business Day, the Fund will disclose on the Fund's website ("Website") the identities and quantities of the money market securities and other assets held by the Fund (i.e., the Portfolio Securities) that will form the basis for the calculation of NAV at the end of such Business Day. The Website will be publicly accessible at no charge. This information will form the basis for such Fund's NAV calculation as of 4:00 pm ET on that Business Day.

C. Dissemination of Information about Funds and Their Shares

In order to provide current Share pricing information for each Fund for use by investors, professionals and persons wishing to create or redeem Shares, the Listing Exchange will disseminate: (i) continuously throughout the trading day, through the facilities of the consolidated tape, the market value of a Share, and (ii) every 15 seconds throughout the trading day, separately from the consolidated tape, a calculation of the IIV of a Share.¹² Comparing

¹² The IIV of the Fund's Shares is calculated by dividing the value of the Deposit Securities by the number of Shares in a Creation Unit. Throughout the U.S. trading day at 15-second intervals, the vendor will recalculate the IIV of the Fund's Shares to reflect changes in market values.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 16 of 21

these two figures allows an investor to determine whether, and to what extent, Shares are selling at a premium or a discount to IIV. The IIV is calculated and provided to the Listing Exchange on a daily basis by a third party calculation agent not affiliated with the Fund.

As with other Market listed stocks, Shares' closing prices, and certain other daily trading information, such as market prices and volume of Shares, will be broadly available on a real time basis throughout the trading day. The Trust expects that the previous day's closing price and volume information will be published daily in the financial sections of many newspapers. In addition, the Trust expects, given the past history of Prior ETFs, that Shares will be followed by stock market and mutual fund professionals as well as investment advisers who will offer their analysis of why investors should purchase, hold, sell or avoid Shares. Market listing of Shares should help ensure that there is a substantial amount of raw data available, and that such data is packaged, analyzed and widely disseminated to the investing public. Also, the Listing Exchange intends to disseminate a variety of data with respect to Shares on a daily basis by means of CTA and CQ High Speed Lines including: information as of the previous day's close with respect to NAV and the number of Shares outstanding. The Trust has been advised that similar information will be provided in connection with Shares of each Fund primarily listed on a Market other than the Listing Exchange.

The Website will also contain the following information on a per Share basis, for each Fund: (i) the prior business day's closing NAV and closing market price (based on the mid-point of the bid-asked spread at the time the Fund's NAV is calculated or the close of ETF trading on the Listing Exchange ("Bid-Asked Price")), and a calculation of the premium or discount of the Bid-Asked Price in relation to the closing NAV; and (2) data for a period covering at least the four previous calendar quarters (or life of a Fund, if shorter) indicating how frequently each Fund's Shares traded at a premium or discount to NAV based on the daily Bid-Asked Price and closing NAV, and the magnitude of such premiums and discounts. The Website will also display the Prospectus, and additional quantitative information that is updated on a daily basis.

PART V

A. Requests for Relief - Introduction

The Trust, on behalf of itself, the Listing Exchange, other Markets, the Distributor, Authorized Participants and persons or entities engaging in transactions in the Shares, requests that the Commission grant exemptive relief from Exchange Act Rule 10b-17 and and provide

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 17 of 21

interpretive relief under Rules 101 and 102 of Regulation M. As noted above, this requested relief is substantially similar to relief granted to the Prior ETFs currently trading on a Market and to the other series of the Trust.

The Trust represents that the Fund's arbitrage mechanism will be facilitated by the transparency of the Fund's portfolio and the availability of the IIV, the liquidity of Portfolio Securities, and the ability to access such Portfolio Securities, as well as arbitrageurs ability to create workable hedges. Further, the Fund will invest solely in liquid Portfolio Securities. As discussed above, there will be disclosure on each business day of the Fund's Portfolio Securities and the IIV will be disseminated every 15 seconds throughout the trading session each business day. The Fund will invest in Portfolio Securities with liquidity levels that will facilitate an effective and efficient arbitrage mechanism and the ability to create workable hedges. For these reasons, we expect arbitrageurs to be able to take advantage of price variations between the Fund's market price and NAV. Thus, the Trust expects a close alignment between the market price of Fund shares and the NAV of the Fund.

1. Rule 10b-17.

Rule 10b-17 requires an issuer of a class of publicly traded securities to give notice of certain specified actions (e.g., dividends, stock splits, rights offerings) relating to such class of securities in accordance with Rule 10b-17(b). Paragraph (c) of the Rule, however, states that the Rule shall not apply to redeemable securities issued by open-end investment companies and unit investment trusts registered under the 1940 Act. Except for the fact that redemption is subject to the minimum condition of tendering 50,000 Shares, the Trust is intended to function like any other open-end fund continuously offering its shares. It is in recognition of the foregoing that the Division of Investment Management issued an order permitting the Trust to issue shares with limited redeemability while still treating the Trust like any other open-end investment company. In addition, compliance with Rule 10b-17 would be impractical in light of the nature of the Fund. This is because it is not possible for the Trust to accurately project ten days in advance what dividend, if any, would be paid on a particular record date. Therefore, the exemption under paragraph (c) of Rule 10b-17, which covers open-end investment companies with fully redeemable shares, should be applicable to the Trust.

2. Rule 101 of Regulation M.

The Trust respectfully requests that the Commission grant interpretive relief from Rule 101, as discussed below, to permit persons participating in a distribution of Shares of the Fund to bid for or purchase, redeem or engage in other secondary market transactions in such Shares.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 18 of 21

Generally, Rule 101 of Regulation M is an anti-manipulation regulation that, subject to certain exemptions, prohibits any "distribution participant" and "its affiliated purchasers" from bidding for, purchasing from, or attempting to induce any person to bid for or purchase, any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of Rule 101 apply to underwriters and prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in such distribution.

The Trust understands that while broker-dealers that: (i) tender Portfolio Deposits to the Trust through the Distributor in return for Shares of the Fund in Creation Units; or (ii) redeem Shares of the Fund in Creation Units for receipt of Redemption Securities and cash (or cash only) held by the Fund generally will not be part of a syndicate or selling group, and while no broker-dealer will receive fees, commissions or other remuneration from the Trust or the Distributor for the sale of Shares of the Fund in Creation Units, under certain circumstances such broker-dealers could be deemed to be "underwriters" or "distribution participants" as such terms are defined in Rule 100(b).

Paragraph (c)(4) of Rule 101 exempts from its application, inter alia, redeemable securities issued by an open-end management investment company (as such terms are used in the 1940 Act). The Trust is registered as an open-end management investment company under the 1940 Act. However, as discussed above, individual Shares are not redeemable except in Creation Units. Due to the redeemability of the Shares in Creation Units, there should be little disparity between the Shares' market price and their net asset value per Shares. Accordingly, the rationale for exempting redeemable securities of open-end management investment companies from the application of Rule 101 is equally applicable to the Shares. Although redemption is subject to the condition of tendering the appropriate number of Shares of Creation Units, the Trust otherwise will continue to function as an open-end fund continuously offering its Shares. It is in recognition of the special nature of such offerings that open-end management investment company and unit investment trust securities are exempted under paragraph (c)(4). Without such an exemption, they could not operate as intended. In view of the foregoing, the Trust requests that the Commission confirm that as a result of registration of the Trust as an open-end management investment company and the redeemable nature of the Shares in Creation Units, transactions in the Shares would be exempted from Rule 101 on the basis of the exception contained in (c)(4) of such Rule.

The purpose of Rule 101 is to prevent persons from conditioning the market to facilitate a distribution. Creation Units of Shares may be created and redeemed, in kind (or in cash in

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 19 of 21

certain cases) at net asset value, on any Business Day. Holders of Shares also have the benefit of intra-day secondary market liquidity by virtue of their Market listing. Thus, the secondary market price of Shares should not vary substantially from the net asset value of such Shares. Because of the redeemability of Shares in Creation Units, coupled with the open-end nature of the Trust, any significant disparity between the market price of the Shares and their net asset value should be eliminated by arbitrage activity. Because the net asset value of Shares is largely based on the market value of the relevant Fund holdings, transactions involving Shares (creations from and redemptions with the Trust, as well as purchases and sales in the secondary market) will not affect net asset value. Similarly, such transactions should not have a significant effect on the market price of Shares.

The Trust requests that the Commission clarify that the tender of the Shares to the Fund for redemption and the receipt of Redemption Securities upon redemption does not constitute a bid for or purchase of any of such securities, or an "attempt to induce any person to bid for or purchase a covered security, during the applicable restricted period" for the purposes of Rule 101. Redemption entails no separate bid for any of the Redemption Securities. As described above, following notice of redemption, a Fund will deliver the specified Redemption Securities after the redemption request is received in proper form, except in those cases where redemption proceeds are paid entirely in cash. Absent unusual circumstances, the Trust will not purchase Redemption Securities in the secondary market to fulfill a redemption request. Therefore, redemptions of Shares cannot be expected to affect the market price of the Redemption Securities. As indicated above, the Distributor will not engage in any secondary market transactions in Shares, either for its own account or for investors.

In view of the lack of any special financial incentive to create Creation Units of Shares, combined with a predictable lack of any meaningful potential for the issuance and the secondary market trading of Shares to affect significantly Shares pricing, application of Rule 101 to a broker-dealer or other person who may be participating in a distribution of Shares or securities held by the Fund is unnecessary and inappropriate, and could unnecessarily hinder broker-dealers or other persons in their creation and redemption activities, in their day-to-day ordinary business of buying and selling Shares and thus undermine the potential beneficial market effects of Shares trading discussed throughout this Letter.

3 Rule 102 of Regulation M.

The Trust respectfully requests that the Commission confirm that, as a result of registration of the Trust as an open-end management investment company and the redeemable

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
September 2, 2010
Page 20 of 21

nature of the Shares in Creation Units, for the reasons previously stated under the request for relief under Rule 101(c)(4), transactions in Shares would be exempted from Rule 102 on the basis of the exception contained in paragraph (d)(4) of such Rule. Application of Rule 102 in this context would not further the anti-manipulative purposes of the Rule. Alternatively, the Trust requests that the Commission grant an exemption under paragraph (e) of Rule 102 to such effect. Application of Rule 102 in this context would not further the anti-manipulative purpose of this rule.

The purpose of Rule 102 is to prevent persons from manipulating the price of a security during a distribution and to protect the integrity of the offering process by prohibiting activities that could artificially influence the market for that particular security.

For the reasons described in connection with the requested Rule 101 relief, redemption transactions and secondary market transactions in the Shares are not viable means to manipulate the price of a portfolio security held by the Fund during a distribution of such security. The Trust will redeem the Creation Units of Shares at the NAV of the Shares. Although Shares are traded on the secondary market, Shares may only be redeemed in Creation Units. Thus, the Trust believes that the redemption by the Trust of the Shares of the Funds at NAV in consideration principally for Portfolio Securities held by a Fund does not involve the abuses that Rule 102 was intended to prevent.

PART VI

A. Conclusion

Based on the foregoing, the Trust respectfully requests that the Commission and the Division of Trading and Markets grant the relief requested herein. The forms of relief requested are virtually identical to those actions which the Commission and the Division of Trading and Markets have taken in similar circumstances.

Josephine Tao
Assistant Director
Division of Trading and Markets
Securities and Exchange Commission
